I use KG Primary Penmanship font in my products. It's free for personal use! [Click here](#) to download.

SIMPLE SCHEDULE TEMPLATES

I recommend color-coding your schedules, and have provided you with some color suggestions!

Suggested colors to use:

I have given you some suggested colors to use with your schedules, but feel free to choose your own!

To use these colors, first click on the textbox you would like to change.

Click on the “border color” icon.

SIMPLE SCHEDULE TEMPLATES

You should see a set of “custom” colors at the bottom of the menu. Click on the color you want to use. The textbox should now be that color.

I recommend adding transparency to the textbox so that you can see the table borders. Click the “border colors” icon again and click the “+” sign.

At the bottom, you should see the transparency slider. Slide the button to approximately the halfway mark and click “ok.”
